CablePort Office^{frame}

The way of working has changed and convenient connection options on the desk are now more important than ever. The CablePort Office^{frame} is easy to install and is the ideal solution for office and home office.

> Design counts

The CablePort Office^{frame} with its purist design fits into any ambience and creates order on the desk.

> Modular connection solution

Three different housing sizes (3, 4, or 6 ports) are available, which can be individually equipped with sockets, USB chargers or other interfaces.

> Simply with a click

Customization is super easy thanks to the wide range of **Konnect flex 45 click plates**. With just one click, the required interfaces, such as HDMI, network or USB, are installed in the CablePort office^{frame}.

> Easy installation

The CablePort Office^{frame} can either be placed on the table and screwed or inserted into the table top with the supplied clamps and jammed.

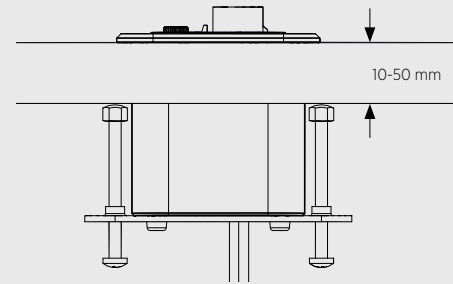

> Excellent price/performance ratio

The robust and durable table connection panel, Made in Germany, is characterized by a remarkable value for money. The first choice also for companies that implement desk sharing concepts and want to equip a large number of desks.
