MultiMedia connection systems

Modular and versatile

The modular MultiMedia connection system can easily integrate computer, video, audio, control or network connections in socket systems, desktop casings, floor boxes and 19" rack patch panels.

It puts an end to ugly cables lying or hanging around!
Choose from the biggest product range on the market.

Ready for the future

The modular system can be expanded any time by adding more adapter plates.
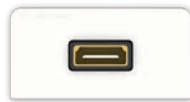

Konnect family

The high-quality adapter plates are available for various applications and in different designs and materials.
